# HARROLD'S - REVIEW

OCTOBER 24, 1942.

VOL. I, No. 6.

HARROLD'S PANSY GARDENS & GREENHOUSES

P. O. BOX 29 — GRANTS PASS, OREGON.

It is the purpose of this folder to inform our friends and patrons as to the seeds, plants and bulbs that are seasonable and available at this time. This does not mean that these are the extent of our stock, but rather they are those most likely to be of interest at this time. The prices quoted herein of course supersede previous offers on these items. For a more complete listing of our stock please refer to back issues of this publication. Back copies gladly supplied on request. In requesting them please state what kinds of stock you are interested in.

## PANSY PLANTS

We can ship plants to you at any time now and it is seldom that any difficulty is experienced in obtaining perfect arrival. We have successfully shipped plants to every state in the United States and can safely do so to your city until about March first, next. Our facilities enable us to make shipment with little delay throughout the entire winter usually. It is suggested, however, that you will find it a good policy to fill your beds as early as possible. All the plants we send out are freshly dug, carefully wrapped in a special paper wrapper and Spagnum moss. They are shipped without soil in specially constructed boxes — strong yet very light. Our forty years experience in shipping plants gives the greatest possible assurance of safe arrival and good stock. **FILL THOSE OUTDOOR BEDS NOW!** Pansies grow into money with little care and **NO HEAT!**

Each year we grow and ship hundreds of thousands of the finest Pansy plants. These are strong robust plants, grown in open field beds and growing in sandy loam soil they have large, fibrous roots. In fact our seedling stock equals what is often supplied as transplants and quite frequently is showing bud. The variety and quality of strain is the highest procurable — many of our varieties listed here being our own originations.

## RULES COVERING PLANTS — Quantities and Shipping

## 250 OF A VARIETY AT THE 1,000 RATE

Less than 250 of a variety and size will be charged at the 100 price regardless of the quantity of the entire order. The 3,000 price may be applied to orders aggregating 3,000 or more providing no item included in that price group is for less than 1,000 plants. The shipping weight of plants is difficult to state as this will vary a good deal depending on size of plants and moisture content of the soil from which they are dug. Because of this we do not and can not quote a delivered price on any plant material.

We recommend that ALL perishable material be sent by Railway Express and we will in no way assume any responsibility for shipment by other means. Parcel Post may be used with reasonable safety up to the fifth zone (1,000 miles) although we will assume NO responsibility for delivery of plants so sent. If post shipment is desired or necessary, FULL POSTAGE MUST accompany order or we will make the postage C. O. D. Express shipments travel second class which is about the same in cost and the exact charges will be collected on delivery without additional collection charge such as is necessary on collect postage.

## Authorized Plant Growers

( WHOLESALE )

As has been our custom for many years past we have made every effort to have HARROLD'S PEDIGREED STRAIN PANSIES available to tradesmen, not only from the home gardens here at Grants Pass, but also from a group of other reliable growers so situated throughout the country that this valuable material could always be conveniently obtained. We give below a list of these growers and if one is near you it is suggested that they can possibly serve you to considerable advantage. None of these growers have the complete line of Harrold varieties and so because of this it will be necessary that you contact the grower you may select and ask what variety he can supply as well as his prices as each is at liberty to set his own price schedule.

It will be noted that two types of growers are listed this year. Those whose names are preceded by a fist thus (☞) are growers who have planted in large quantities to supply plants at wholesale and make a specialty of this trade. The others listed are firms who have planted considerable seed and may be able to supply some stock to tradesmen in their immediate vicinity. We list the latter group because we expect a shortage of this stock this year and are doing all we can to supply everyone who wants it. REMEMBER— if you want to buy from any of these firms, unless they advertise or make you an offer, don't order from this list. Write them first and ask what can be supplied and at what price.

## Pansy Plant Specials

## REGULAR SEEDLINGS

This special assortment is from our regular size seedlings and is offered as long as this lot is available at this attractive price. It will be composed of 1,000 each of three varieties or 1,500 each of two varieties, OUR SELECTION. The price would exceed \$15.00 if they were purchased separately. The varieties will be labeled as to name. We make this offer as it enables us to adjust our stock on varieties which are developing surplus because of seed germination above that obtained from other sorts in our line.

3,000 for \$12.00

This Assortment Will Be supplied Only In Units Of 3,000.

## LARGER PLANTS

Large, thinly sown, open field grown. Many of these are showing bud and a few bloom. A very nice plant for a special sale or to make a quick showing. All are the best mixed colors but we will not specify varieties. A stock equal to transplanted for all practical purposes but at seedling price. ONLY 30,000 of these to go so HURRY.

PRICED AT \$6.00 PER 1,000; 3,000 FOR \$15.00.

NOT LESS THAN 500 OF THESE SOLD

## BULBS

These bulbs are of the finest quality we have ever handled. Our grower had an exceptionally favorable growing season and the bulbs show it. Plump and well developed with size grades running strong they will give you fine results. It will be noted that we offer these as special grades. This is done in order that the classes can be more easily understood. "TOP" size is the heaviest blooming size and is the best for forcing. NUMBER ONE size is suitable for forcing and a "best" size for outdoor planting. NUMBER TWO size is not recommended for forcing but will be found thoroughly satisfactory for outdoor planting. If you want this stock ORDER AT ONCE as the 60,000 left will not last long.

## Tulips

These Tulips are exceptionally fine and the florist will find these northwest grown stock the equal of any of the pre-war imports on a basis of results.

## STOCK SEEDS

### DOUBLE GIANTS OF CALIFORNIA

We were among the first seedsmen to recognize the quality and value of these two groups of Stocks and to offer the originator's full line. We are more confident today that these will please you and be profitable.

These are an improvement over the Improved Bismarck or Giant Imperial strains with stronger plants and large flowers. When set close (4 to 6 inches each way) they produce but a single terminal spike equal to the Excelsior Column type and if given more room they produce lateral bloom. The colors are quite distinctive

VARIETY	Price per	1/8-oz.	1/4-oz.	1/2-oz.	1-oz.
GOLDEN GATE: Rich yellow. ....	\$ .50	\$1.00	\$1.90	\$3.50	
MOJAVE: Royal purple. ....	.50	1.00	1.90	3.50	
MONTEREY: Brilliant pink. ....	.50	1.00	1.90	3.50	
PACIFIC: A very fine blue. ....	.50	1.00	1.90	3.50	
REDWOODS: Best blood red. ....	.50	1.00	1.90	3.50	
SANTA BARBARA: Excellent chamois. ....	.50	1.00	1.90	3.50	
SANTA MARIA: Very fine pure white. ....	.50	1.00	1.90	3.50	
SEQUOIA: Bright rose carmine. ....	.50	1.00	1.90	3.50	
TAHOE: The most desirable shade of lavender. ....	.50	1.00	1.90	3.50	
YOSEMITE: Deep clear rose. ....	.50	1.00	1.90	3.50	
FANCY MIXED: All the above colors blended. ....	.45	.90	1.60	3.00	

NOTE: We have discontinued the Improved Bismarck group because we have found this variety to be superior and of more value.

### The New Early Colonial Type

This new race of Stocks is of great value to the florist who wants heavy production of prime flower spikes over a moderate period of time. Tall and exclusively branching, they produce no center spike but branch at the base; producing 8 to 10 spikes 30" long. They flower 2 weeks earlier than the perpetual branching types. Florets are double and 2" in diameter. Doubleness of the plants is about 70%. Highly recommended.

VARIETY	Price per	1/8-oz.	1/4-oz.	1/2-oz.	1-oz.
MAYFLOWER: Fine rose red. ....	\$ .75	\$1.50	\$2.75	\$5.00	
PRISCILLA: Silvery lavender. ....	.75	1.50	2.75	5.00	
PURITAN: Glowing pure white. ....	.75	1.50	2.75	5.00	
ROSE STANDISH: Bright rose. ....	.75	1.50	2.75	5.00	
CUT FLOWER BLEND: All the above colors. ....	.75	1.50	2.75	5.00	

### SUPER-GIANT IMPERIAL

A giant race of the Imperial or Improved Bismarck type. Flowers are large and well spaced, on long spikes. Doubleness is excellent.

VARIETY	Price per	1/8-oz.	1/4-oz.	1/2-oz.	1-oz.
BLUSH PINK: Fine light pink a good florist type. ....	\$ .60	\$1.20	\$2.30	\$4.50	
CHAMOIS: NEW. True chamois coloring. ....	.60	1.20	2.30	4.50	
DARK BLUE: An excellent color. ....	.60	1.20	2.30	4.50	
FIERY RED: A really brilliant shade. ....	.60	1.20	2.30	4.50	
ROSE CHARM: A beautiful, rich deep rose. ....	.60	1.20	2.30	4.50	
ROSELIGHT: Glowing rose pink. ....	.60	1.20	2.30	4.50	

## Other Seeds

We stock a very complete assortment of seeds which are of great value to florists. These include Forcing Snapdragons, Asters, Delphiniums, Marigolds, Petunias, Salvia, Verbena, Violas and Zinnias all as specialties and in a wide assortment. Also we have many items of lesser importance as well as Perennial seeds in well over a hundred kinds. It is our effort to list these as each group becomes seasonable in this publication so as to keep you informed. If, however, for any reason you wish quotations on these at other times we will gladly supply back issues that have the desired information. We suggest that you file these folders.

## HARROLD'S PEDIGREED GIANT HARDY PRIMULA

This is a new strain on which we have worked for over five years. The plants are compact and of robust growth while the flowers are born on fine stems well above the foliage. Flowers are large, often as large as a silver dollar and the colors are outstandingly brilliant and varied including yellows, reds and purples of real brilliance. Of veris polyanthus type.

## Snapdragon Seeds

The following rust resistant Snapdragons we believe to be the best and most useful available today in the three type groups offered. While they are not entirely immune from rust in some localities, in most cases no trouble from rust will be experienced. They can be grown where non-resistant strains are a total failure. We have found that the application of three pounds of Hydrate Lime to the hundred square feet of bed is beneficial to all Snaps in reducing rust trouble.

### RUST RESISTANT SUPER MAJESTIC

Plants 16" to 20" high. We like these for outdoor bedding for their fine, close placed flower heads on plants low enough that support is not necessary, even in quite windy locations. Highly recommended for bedding plant sales.
